SUMMARY

I have recently completed my journey as a MERN Stack Developer and am excited to join a company where I can improve my skills and contribute to projects. With knowledge in MongoDB, Express.js, React.js, and Node.js, I am ready to help build and maintain web applications. I am looking for a friendly and innovative workplace where I can continue to learn and grow while making a positive impact.

SKILLS

- HTML
- CSS
- JavaScript
- Python
- Node.js
- Express.JS
- Mongodb
- React JS

SOFT SKILLS

- Leadership
- Time Management
- Team Work
- Problem Solving

PROJECTS

MOVIE THEATER APPLICATION

Developed a movie theater website using the MERN stack, allowing users to book tickets online. Implemented user authentication for secure access and designed an interactive UI for seamless navigation. Managed backend operations including movie data, user bookings, and theater information.

NEWS APPLICATION

The news website project is easy to use. It shows top headlines when you open it, and you can search for news that you like. It works well on different devices, and you can easily explore different categories. It uses React to quickly update content without slowing down, and it has features to make sure everyone can use it.

BOOK LIBRARY APPLICATION

Developed a user-friendly book library application using HTML, CSS, JavaScript, Node.js, and MongoDB. The project seamlessly connects to the frontend, allowing users to efficiently manage and explore a diverse range of library resources.
